

Car Service Log

Odovo · Sofft
sofft.app/odovo

One line per job — date AND mileage, whichever fills first decides the next one

Vehicle / Plate:

Model year:

Log started (date / mileage):

Date	Mileage	Work done / parts	Shop	Cost	Next due (date/mi)

Reading the log

- Record BOTH date and mileage on every line — items age on two clocks.
- Keep receipts stapled behind this sheet; invoice + line = proof at resale.
- A job with no “next due” entry is a job you’ll rediscover by breakdown.

Notes (recurring symptoms, warranty items, tire storage location)

Reminders by date OR mileage, receipts photographed — Odovo, free for your first vehicle
